Glutathione for Athletes

Facilitator: Bruce Matheson, Former Quarterback of Nebraska and San Diego Chargers

Conference Call Guest: Dr. Don Colbert

Glutathione functions as the master Anti-Oxidant

- Increases  Energy
- Decreases Inflammation
- Quickens Recovery
- Increases Level of Training
- Increase Mitochondria—Depleted with training, sleep deprivation, poor diet, etc.
- Raw meat, milk, and eggs increase Glutathione
- Decreases inflammation faster than anything
- Infections decrease glutathione as fast or faster than generated
 - Create free radicals—Oxidation decreases Glutathione, negatively effecting mitochondria
- Optimal levels of Glutathione in the muscle results in a less fatigued heart, decreased lactic acid → Increased Endurance
- Produce Energy—Combat Free Radicals
- Immediate Recovery
- Recently a gentlemen set five World Records in weight lifting in twenty-five minutes.
- NFL Certified, WBC and RBC deem glutathione safe
- Tests have shown on those surpassing their 100th birthday posses glutathione levels of 25 to 30 year olds.
- Athletes glutathione levels decrease with age, resulting in increased inflammation.
- Glutathione restores good free radicals → Decreasing Inflammation
- One gentleman eliminated using 2,400 mg of daily ibuprofen by taking Cellgevity and increasing his glutathione. He lost 110 pounds, reducing his bodyfat from 40% to <6%. Became 2010 Body Building Champion at the age of sixty-three. He is now the healthiest of his whole life.
- Other trainees tested #1 and #2 in the Marine Corps tryouts using Max Cellgevity and ATP

Most energy drinks are driven by high amounts of caffeine and sugars. WebMD states that "energy from caffeine and sugar will only leave you more fatigued as your blood sugar levels fluctuate wildly." MaxATP harnesses the power of RiboCeine™ and ten other nutrients to support the natural cellular production of Adenosine triphosphate (ATP), your cells' natural energy source. MaxATP has only 3 grams of sugar and a small amount of naturally occurring caffeine derived from its antioxidant-rich green tea extract.

In today's fast-paced world of more stress, less sleep and poor diets, everyone needs more energy just to keep up. No one likes to fade in the middle of the day. MaxATP with its patented RiboCeine, provides nutrient-based, sustained energy, for your mind and body. You dont get a short term "buzz," you just feel and perform at your peak, from beginning to end.
